## Standardized Testing Information

Test	Date	Score	Percentile	Location
SAT	Nov 1978	1190		Lower Merion Senior High
SAT Reasoning Test SAT test results include separate scores for critical reading, math, and writing. In order to understand your test result, let's look at how the test is				

**Name:** Katie Gentile **DOB:** 1/7/1962 **SSN:** 111-22-3333**Standardized Testing Information**

Test	Date	Score	Percentile	Location
------	------	-------	------------	----------

scored. First, your raw score is calculated:

Each correct answer: (+) 1 point

Each incorrect answer for a multiple-choice question: (-) 1/4 of a point

Each incorrect answer for a student-produced response: 0 points

Each omitted question: 0 points

This score is then converted to a scaled score by a statistical process called equating. The scaled score can range from 200 to 800. Two sub-scores will be given for the writing section: a multiple-choice sub-score (20-80 scale) and an essay sub-score (2-12 scale). Your essay is scored by two readers on a 1-6 scale, and then those two scores are combined to produce your score on the 2-12 scale. The multiple choice writing section counts for approximately 70% and the essay counts for approximately 30% of your total raw score, which is used to calculate your 200-to-800 writing section score.

**SAT Subject Tests**

The raw scores for SAT Subject Tests are calculated as:

Each correct answer: (+) 1 point

Each incorrect answer for a 5-choice question: (-) 1/4 of a point

Each incorrect answer for a 4-choice question: (-) 1/3 of a point

Each incorrect answer for a 3-choice question: (-) 1/2 of a point

Each omitted question: 0 points

Like the Reasoning Test, these scores are converted to scaled scores ranging from 200 to 800. Subject Test sub-scores are reported on a scale from 20 to 80.

**Percentiles**

Percentiles compare your scores to the scores of other students who took the test. Your percentile number (between 1 and 99) tells what percentage of students earned a lower score. For example, if your percentile number on a particular area is 85, then you scored better than 84% of the other students who took the test.
